

## FORD 302 / 351 Alternator Bracket Kit

AF64-4000, AF64-4000BLK

### Assembly Instructions

1. Mount Alternator Bracket Assembly & water pump to engine block using 2 x 5/16-18 x 76mm socket head cap screw. Place 1 x 5/16 x 9mm spacer tube between alternator bracket assembly (bottom hole) & water pump (do not tighten completely yet)
2. Mount Alternator Bracket Assembly & alternator to cylinder head using 1 x 7/16-14 x 152mm socket head cap screw and 1 x 7/16 x 57mm spacer tube (between alternator and cylinder head)
3. Mount alternator relocater bracket to alternator using 1 x 3/8 x 25mm socket head cap screw
4. Mount one end of 64mm stainless steel rose joint assembly to alternator using one 3/8-16 x 31mm socket head cap screw and 1 x 64mm 3/8-16 nylon locknut
5. Mount other end of 64mm stainless steel rose joint assembly to alternator bracket using one 5/16-18 x 3/8 shoulder bolt.
6. Install belt. Adjust belt tension using rose joint assembly.
